Notes to Condensed Interim Consolidated Financial Statements

June 30, 2020

Canadian Funds

Unaudited

1. Nature of Operations and Going Concern

Gitennes Exploration Inc. ("the Company") is incorporated in the province of British Columbia with its principal office located at 410 – 325 Howe Street, Vancouver, British Columbia. The Company is currently exploring one property in northern British Columbia, has a royalty interest in a property located in Peru, and recently acquired three properties in northern Quebec. All of these properties are in the exploration stage and it has not yet been determined whether they contain mineral reserves.

These condensed interim consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for at least the next twelve months. Several adverse conditions and material uncertainties cast significant doubt upon the going concern assumption. The business of mining and exploration involves a high degree of risk and there can be no assurance that future exploration and development of its properties will result in profitable mining operations or royalty payments to the Company. The Company has no ongoing source of revenue and will require cash to maintain its mineral interests and to meet its administrative overhead. As at June 30, 2020, the Company had a working capital deficiency of \$219,964 and an accumulated deficit of \$36,065,386.

The ability of the Company to continue as a going concern is dependent upon its ability to realize on its assets or raise additional financing to complete the development of its mineral properties and to fund future corporate and administrative expenses (*Note 7*). While the Company has been successful in the past at raising funds, there can be no assurance that it will be able to do so in the future. In addition, the out-break of the COVID-19 pandemic has introduced significant uncertainty into the capital markets, which may affect the ability of junior exploration companies to raise equity to fund exploration activities.

These financial statements do not reflect adjustments in the carrying values of the assets and liabilities, the reported expenses, and the balance sheet classifications used, that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations. Such adjustments could be material.

2. Significant Accounting Policies and Basis of Presentation

Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board as applicable to the preparation of interim financial statements, including IAS 34, *Interim Financial Reporting*. These interim statements do not include all of the information and disclosures required by IFRS for annual financial statements. In the opinion of management, all adjustments and information considered necessary for fair presentation have been included in these financial statements.

These condensed interim consolidated financial statements follow the same accounting policies and methods of their application as the most recent annual financial statements and should be read in conjunction with the Company's audited consolidated financial statements including the notes thereto for the year ended December 31, 2019. All financial information presented herein is unaudited. The Company's board of directors approved these financial statements for issue on August 26, 2020.

3. Share Capital

The authorized share capital of the company consists of an unlimited number of common shares without par value.

a) Issued and outstanding

	Shares	Amount
Balance – December 31, 2018	87,029,759	\$ 33,478,059

Balance – December 31, 2019 and June 30, 2020	105,994,135	\$ 33,967,305

In September 2019, the Company completed a private placement by issuing 5,288,000 units at a price of \$0.035 per unit for gross proceeds of \$185,080 and 10,608,000 flow-through units at a price of \$0.035 per flow-through unit for gross proceeds of \$371,280. Each unit consisted of one common share and one share purchase warrant entitling the holder to purchase one additional common share at a price of \$0.05 per share for a period of three years. Each flow-through unit consisted of one common flow-through share and one two-year non-flow-through share purchase warrant entitling the holder to purchase one additional common share at a price of \$0.05 per share in the first year or \$0.06 per share in the second year. The Company paid finders' fees of \$39,189, issued 1,119,680 finders' warrants valued at \$16,438, paid a \$5,000 corporate finance fee and \$3,530 in legal and filing fees in respect of the placement. The unit price of this offering exceeded the trading price of the shares on the date of issuance, therefore, \$87,398 of the unit proceeds, being the estimated residual value, was assigned to the warrants and classified as contributed surplus.

The value of the flow-through feature of the flow-through shares was estimated at \$22,952 resulting in a flow-through premium liability, which, upon incurring the required qualifying exploration expenditures, will be derecognized and a deferred income tax recovery will be recorded. To June 30, 2020, the Company had incurred qualifying expenditures totalling \$339,436 and derecognized \$20,983 of the premium liability. The balance of the deferred flow-through premium liability of \$1,969 will be derecognized upon completion of the qualifying expenditures. To June 30, 2020, the Company recorded a deferred income tax recovery of \$703 on the current qualifying expenditures and Part XII.6 tax payable of \$3,921 in respect of the remaining balance of qualifying expenditures to be incurred in 2020.

In October 2019, the Company issued 768,376 common shares from treasury in settlement of an outstanding account payable of \$38,418 due to an arm's length supplier by issuing shares with a fair value of \$26,893.

Subsequent to June 30, 2020, the Company completed a consolidation of its share capital and a non-brokered private placement (Note 7).

4. Exploration and Evaluation

Details of the Company's mineral interests are as follows:

Snowbird, Canada

In February 2017, the Company entered into an option agreement granting it the right to earn a 100% interest in the Snowbird property located near Fort St. James, British Columbia. To earn its interest, the Company, at its option, must issue 12,000,000 shares and incur \$1,500,000 in exploration expenditures as follows:

4. Exploration and Evaluation - *continued*

Snowbird, Canada - *continued*

During 2019, the Company issued 2,000,000 shares with a fair value of \$70,000 to the optionors. A finder's fee is payable on the transaction, which requires the issuance of shares in stages as the Company issues shares to the optionor. The agreement provides for a 2% net smelter returns royalty ("NSR") that, upon payment of royalty payments totalling \$1,300,000, reverts to an uncapped 1% NSR.

Maroon, Canada

In May 2018, the Company entered into an option agreement to acquire a 100% interest in the Maroon gold property located 35 kilometres north of Terrace, British Columbia. Over the term of the agreement, the Company paid the optionor \$15,000, issued 600,000 shares, and incurred exploration expenditures of \$11,670 to conduct a work programme that consisted of reconnaissance mapping and sampling and surveying of historic trenches and adits. The Company returned the property to the optionor in May 2020.

Urumalqui, Peru

In December 2014, AndeanGold Ltd. ("Andean") earned a 100% interest in the Company's Urumalqui project situated in north-central Peru. The Company retained an uncapped NSR of 1.5% on all metals produced at Urumalqui, with no buy-out or other provisions attached. In addition, the Company retained a convertible debenture receivable from Andean with a face value of \$475,000, an annual interest rate of 6%, and which is convertible into shares of Andean, at the Company's option, at a conversion rate of \$0.06 per Andean share.

Since October 1, 2015, the common shares of Andean have been subject to a Cease-Trade Order issued by the British Columbia Securities Commission due to a default in complying with its continuous disclosure filing requirements. On December 31, 2015, the Company recorded an impairment loss to write down the carrying value to a nominal balance of \$1,000 and in 2019, recorded a full write-down of this receivable. Management remains committed to collecting the full amount of the debenture, plus accrued interest, as future circumstances permit. The Company also holds 663,000 common shares of Andean, which are carried at nominal value.

Rivière-à-l'Aigle ("RAL"), Canada

In June 2020, the Company entered into an option agreement granting it the right to earn up to an 85% interest in the RAL property located in the Lac Windfall region of northern Quebec. To earn a 70% interest, the Company, at its option, must issue shares and incur exploration expenditures as follows:

	Shares ⁽ⁱ⁾	Expenditures
Upon regulatory approval	150,000	\$ -
On or before September 30, 2021	250,000	150,000

4. Exploration and Evaluation - *continued*

Rivière-à-l'Aigle ("RAL"), Canada - *continued*

Upon earning a 70% interest, the Company can elect to increase its interest in the property to 85% either by producing an inferred resource or completing a preliminary economic assessment ("PEA") within 12 months of making such election. The Company will pay the optionor \$250,000 in cash or shares, at the Company's option, upon producing an inferred resource or \$750,000 in cash upon delivering a PEA. The property is subject to a 1.5% NSR, which can be reduced to 0.5% upon payment of \$1,000,000 to the optionor. Upon earning either a 70% or 85% interest, the Company and the optionor will form a joint venture to further develop the property.

New Mosher, Canada

In June 2020, the Company entered into an option agreement granting it the right to earn up to an 85% interest in the New Mosher property located in the James Bay region of northern Quebec. To earn a 70% interest, the Company, at its option, must issue shares and incur exploration expenditures as follows:

	Shares ⁽ⁱ⁾	Expenditures

(i) Post-consolidation shares (Note 7).

Upon earning a 70% interest, the Company can elect to increase its interest in the property to 85% either by producing an inferred resource or completing a PEA within 12 months of making such election. The Company will pay the optionor \$250,000 in cash or shares, at the Company's option, upon producing an inferred resource or \$750,000 in cash upon delivering a PEA. The property is subject to a 1.5% NSR, which can be reduced to 0.5% upon payment of \$1,000,000 to the optionor. Upon earning either a 70% or 85% interest, the Company and the optionor will form a joint venture to further develop the property.

JMW, Canada

In June 2020, the Company entered into an agreement to purchase a 100% interest in the JMW property located in northern Quebec and a ten-claim property located in the Val-d'Or region of Quebec. Subject to regulatory approval, the Company will pay \$25,000 and issue an initial 1,000,000 post-consolidation shares (Note 7) to the owners of the properties. The Company will issue an additional 750,000 post-consolidation shares after twelve months, subject to regulatory approval. The property is currently subject to an NSR of 2%, one-half of which can be purchased for \$1,000,000. The Company will grant the vendors of the property a further 1.5% NSR, which can be reduced to 0.5% upon payment of \$1,000,000 to the vendors.

4. Exploration and Evaluation - *continued*

Exploration and evaluation expenditures

The Company expenses exploration and evaluation costs relating to its mineral property interests in the period incurred. During the six months ended June 30, 2020, the Company incurred \$7,930 in geological costs and \$935 in mapping costs (2019 - \$205) on its Snowbird project. In February 2020, the Company received a mineral exploration tax credit refund of \$96,494 plus interest of \$1,561.

Title

Ownership of mineral interests involves certain inherent risks due to the difficulties of determining and obtaining clear title to the claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral interests. The Company has investigated ownership of its mineral properties and its NSR on the Urumalqui property and, to the best of its knowledge, ownership of these interests is in good standing.

5. Related Party Transactions and Key Management Compensation

The Company had transactions with related persons or corporations, which were undertaken in the normal course of operations and were measured at the amounts agreed to by the parties. Key management personnel include executive and non-executive directors and executive officers. The compensation paid or payable to key management is as follows:

	2020		2019	
Administrative consulting fees	\$	27,000	\$	30,000
Geological consulting fees		3,000		-
Accounting fees		21,000		21,000
	\$	51,000	\$	51,000

Accounts payable includes \$247,150 (December 31, 2019 - \$214,000) in accrued administrative and geological consulting and accounting fees due to the chief executive officer and the chief financial officer.

In addition, the chief executive officer and the chief financial officer have agreed to waive payment of accrued administrative consulting and accounting fees totalling \$42,500 such that payment will not be required within twelve months. Accordingly, this balance has been classified as long-term debt in these financial statements. These amounts bear interest at 8% per annum; during the period, interest totalling \$1,695 was paid on these amounts.

6. Segmented Information

The Company currently operates in only one operating segment, that being the mineral exploration industry. The Company currently has one exploration project in British Columbia, Canada, three projects in Quebec, Canada, and a royalty interest in a property located in Peru that is owned by Andean.
